

LOGISTICS LTD.

Where Consistent Service is **Priceless!**

IFS Logistics is a fully integrated transportation and supply chain solutions provider. Head-quartered in Brampton, Ontario, we have the expertise to combine all our services to provide our clients with a fully integrated ("One Stop Shop") solution to service all your supply chain requirements.

Truckload

We can handle all your truckload needs throughout North America, without scarifying service. We understand that we are an extension of our clients and consistent service is very important.

Whether local within any major Canadian or US city, long haul across the country or cross- border to and from Canada and the United States, we can provide the transportation services you need.

LTL

We can handle your LTL (Less-Than-Truckload) needs throughout North America. We can provide you with a Supply Chain Solution to ensure your product gets to its destination on time.

Intermodal

We can provide you with Intermodal or Rail service throughout North America. With an integrated solution that will reduce your transportation cost and more importantly help our environment by reducing the carbon foot print and the greenhouse gases produced by human activities.

Consolidation

We are able to provide our clients with warehousing and distribution services, customizable to suit your specific requirements.

Where Consistent Service is **Priceless!**

Technology

IFS Logistics is powered by an innovative / state-of-the-art operating system, which is fully EDI integrable; providing clients the visibility into their supply chain network at a click of a button. Providing information in a timely and accurate manner is a very important element to ensure you and your customers are always aware of the status of your freight. We have some of the latest technology in the industry to successfully facilitate the movement of your freight.

Information

We are an "Information Company", ensuring that the information provided to us, is clearly and accurately communicated to all the participating parties involved to ensure we deliver your freight as you expect and keep you informed every step of the way.

Management

We classify ourselves as an external transportation department, ensuring that we are managing the important aspects of your business such as cost, consistent on-time service, and data integrity.

Our primary focus is not only to offer an expected reduction in transportation cost but to also create a more effective and efficient supply chain process which reduces overall costs without sacrificing service. By analyzing your transportation activity, we are able to design a strategic plan that is most suited to your supply chain needs.

Reporting

We can provide our clients' access to Key Performance Indicators (KPI's) and costing information. Providing our clients with management reports to suit their needs allowing them to make good business decisions and drive business today and into the future.
